

T8 LED TUBE

MODEL: LEDT81200ALD

LED Tube Lighting is the most prevalent light source among Residential, Industrial and Commercial buildings, perfect fits to any industry.

OVERVIEW

- * LM80 approved Philips SMD2835 LEDs with lifetime more than 50,000 hours.
- * High brightness, lumen efficacy up to 120-160Lm/W.
- * Soft and homogenous light.
- * Easy installation with fast connection
- * Idea replacement for traditional fluorescent tube.
- * 3 years warranty, more than 50,000 hours reliable lifespan.
- * 1.5KV Surge Protection, avoiding damage caused by voltage fluctuation and Lightning Strike.

PHYSICAL DATA

Dimension	D25.8*1200 mm
Lamp N.W.	175 g
LED Chip PCB	Aluminum
Material	30% Aluminum + 70% PC Cover
IP Rating	IP20
Endcap	G13

ELECTRICAL DATA

Wattage	18W
Power Factor	PF>0.95
Voltage	100-277VAC
Driver	Flicking
Input	One-side
Surge Protection	>1.5KV

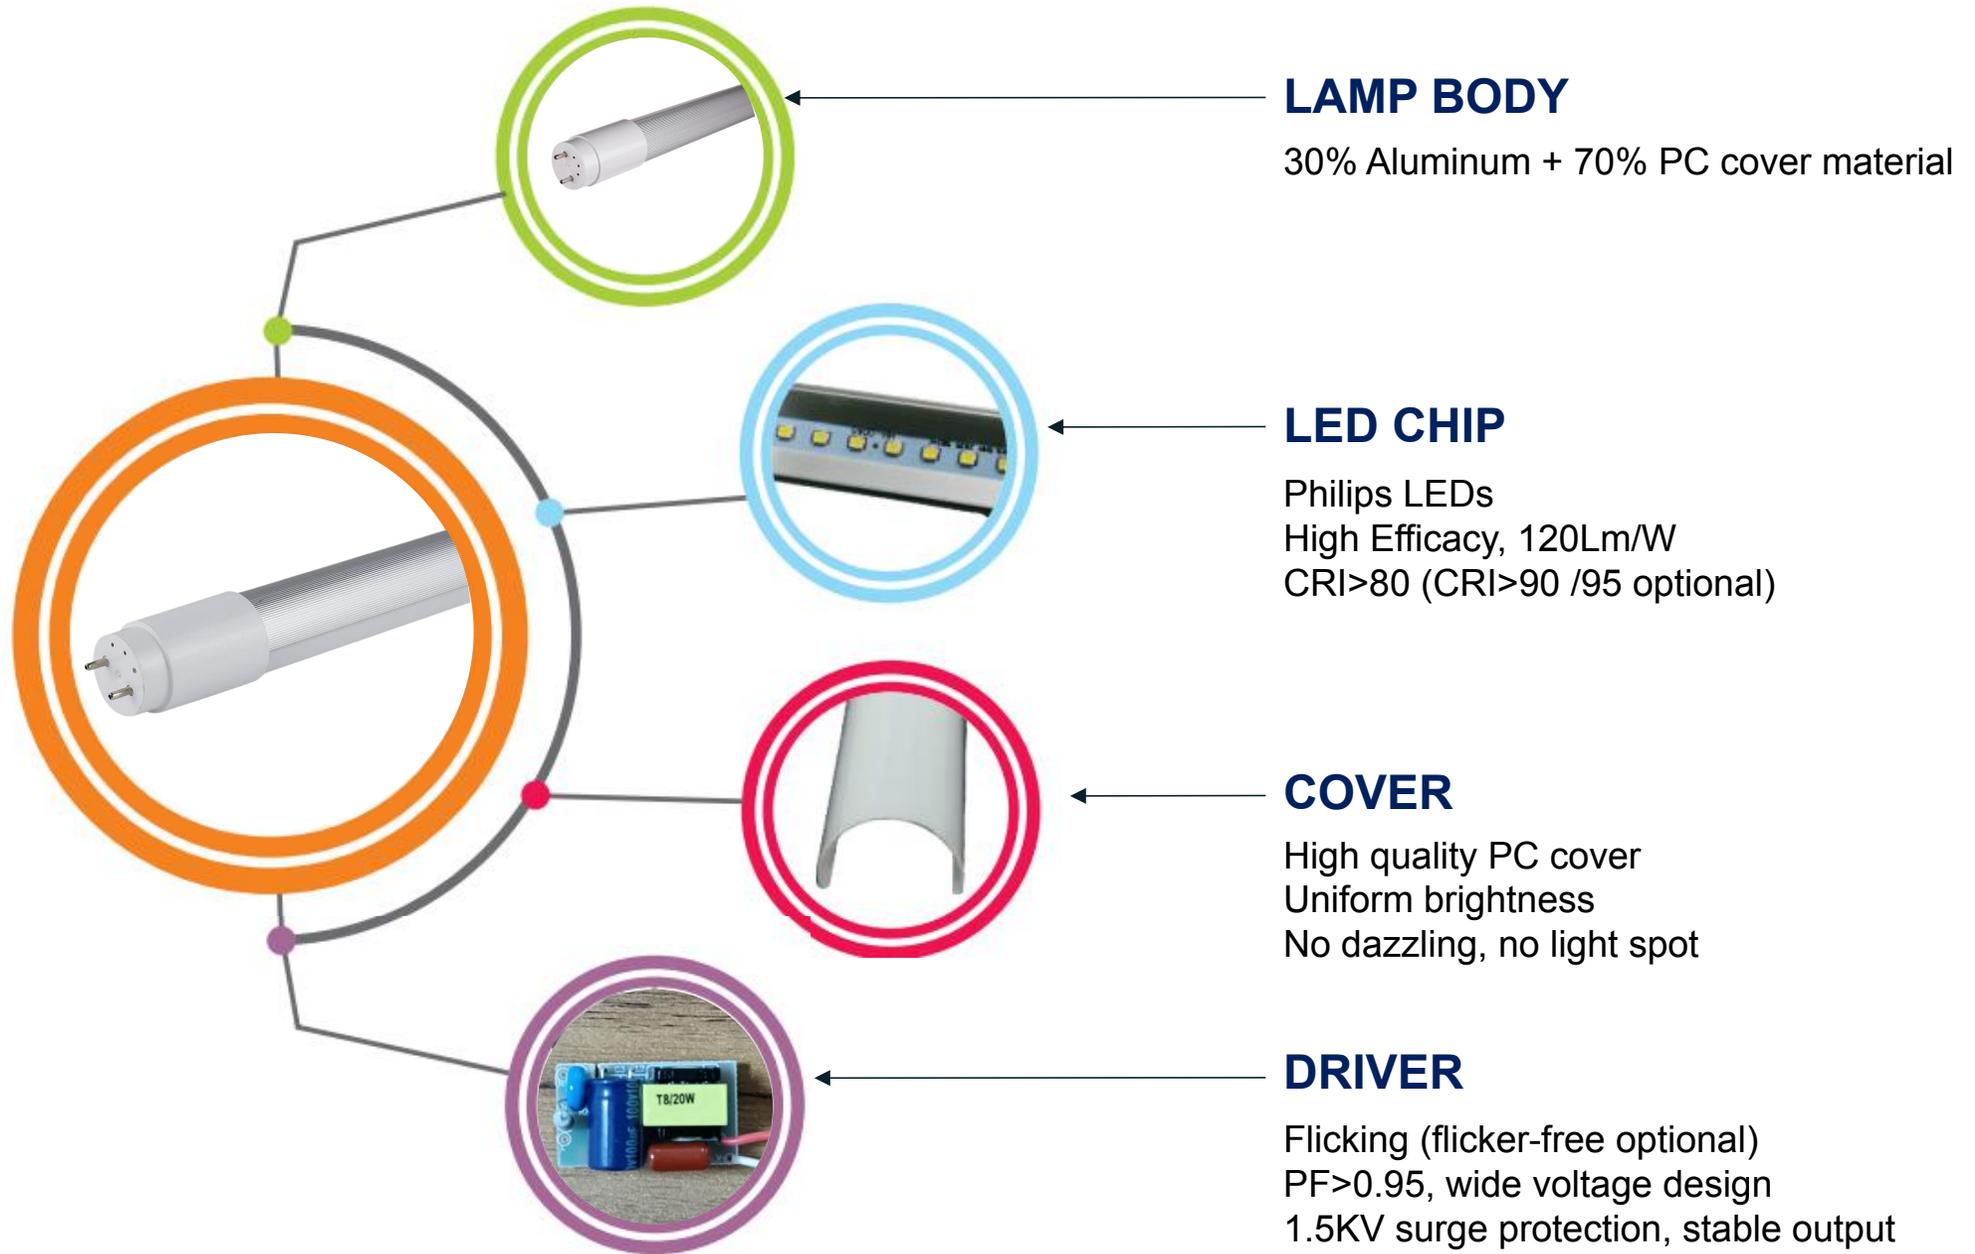

OPTICAL DATA

Lumen Flux	>2160LM
Lamp Efficacy	>120Lm/W
LEDs	Philips SMD2835 (LM80)
CRI	>80
CCT	3000K /4000K /5000K /6500K
SDCM	<3
Beam Angle	120 Degree

LIFE DATA & OPERATING DATA

Lifetime of Lamp	>50,000 hours (L70)
Lumen Maintenance	>95% after 10000 Hours
Warranty	3 Years
Working Temperature	-15°C+40°C
Recommend Install Height	<5M

PRODUCT STRUCTURE

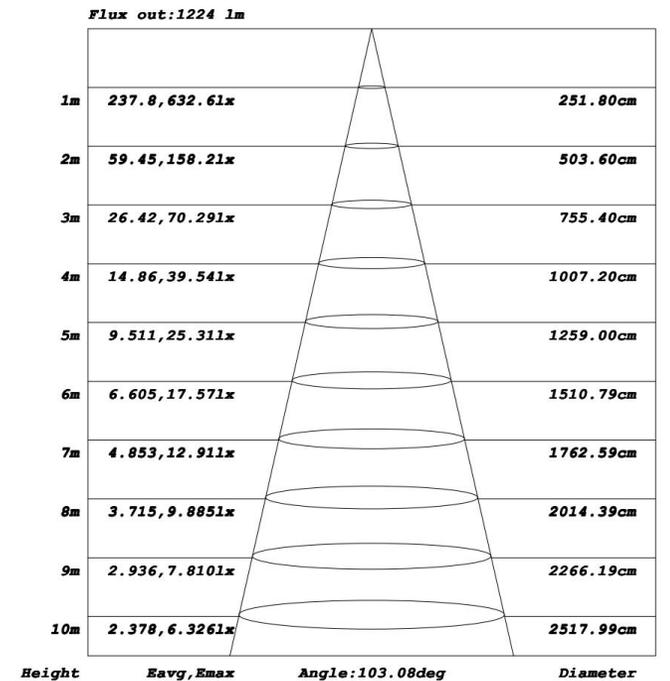

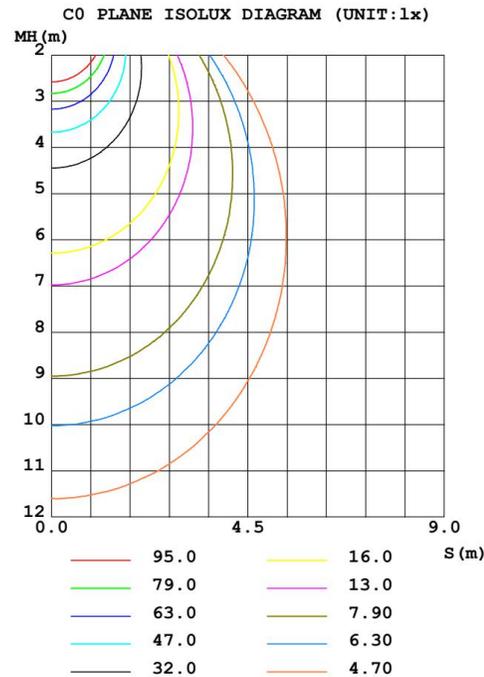

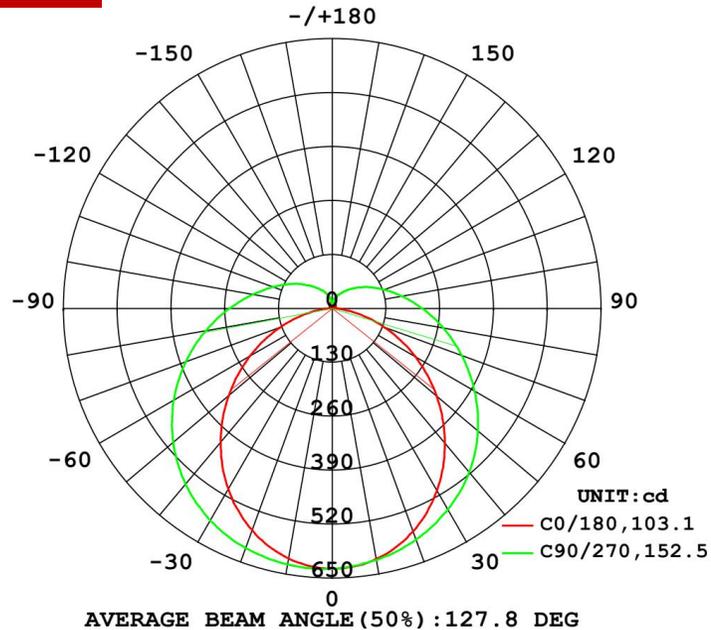

APPLICATION

Lighting area like the home lighting, industrial lighting-warehouse, factory, or commercial lighting-supermarket, restaurant

LIGHT DISTRIBUTION

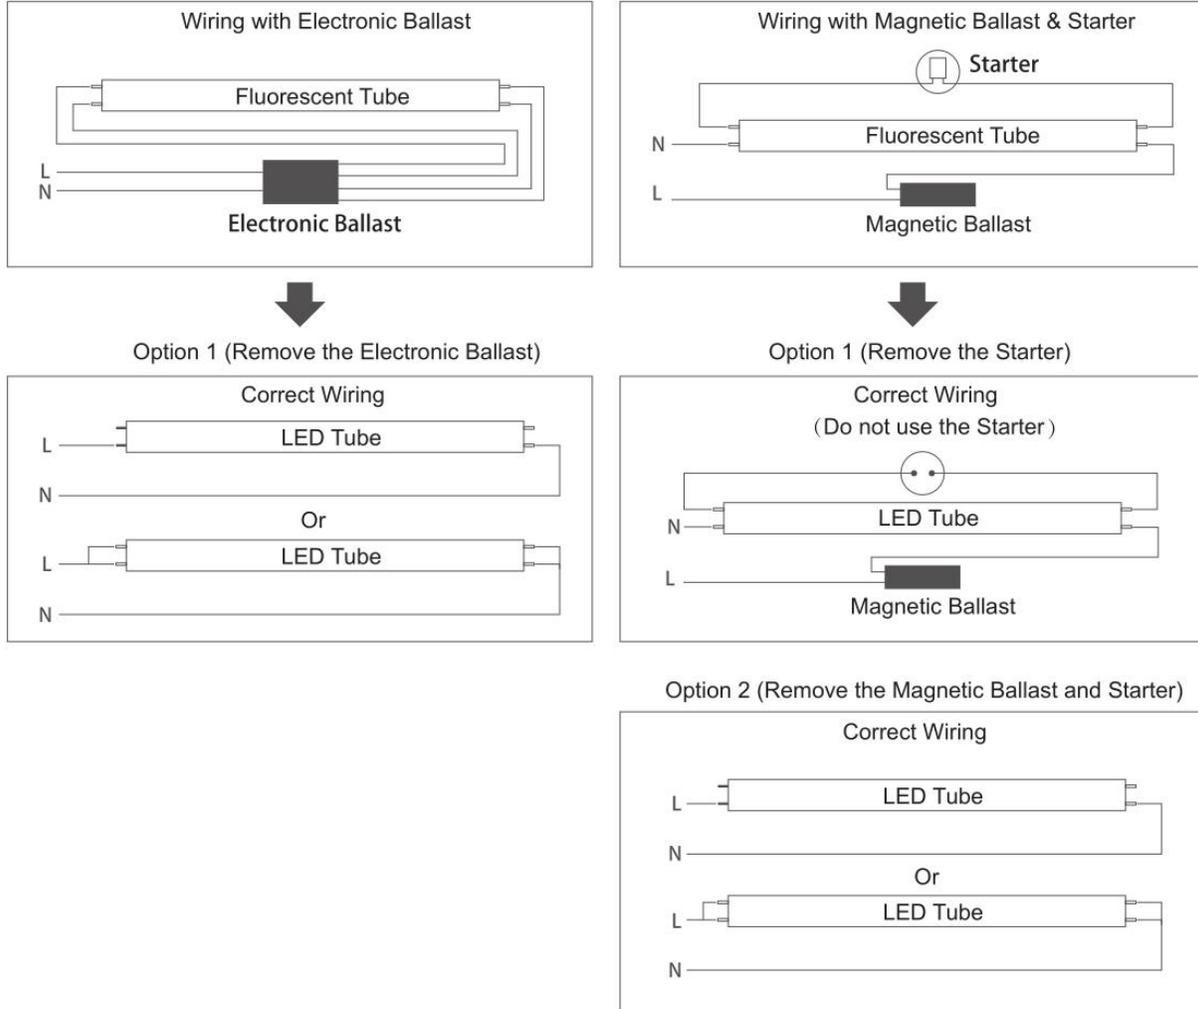

Remark: Above test data base on 18W 120Lm/W CCT 5000K @AC220V testing environment.

INSTALLATION

1. Before installation, power supply must be shut down to ensure safety.
2. Do not operate with traditional dimmer, electric switches and remote controls.
3. Use only in specified nominal voltage and temperature range.

TWO-SIDES POWER SUPPLY TUBE

PACKING

Size	QTY/CTN	Box Size	CTN Size	N.W./CTN	G.W./CTN
1200 MM	30 PCS	28*28*1219 MM	122.6*19.5*16.5 CM	5.24 KG	7.63 KG

ONE-SIDE POWER SUPPLY TUBE
